VOLUNTEER SIGN UP FORM

CCPC is a small club, and putting on these tests requires a lot of volunteers. Almost all positions require people to have hunting licenses, so we cannot just call on our general membership to help. Please help us continue to have tests by volunteering to help. You will, of course, have plenty of time to get your dog out and exercised prior to running. Water and soft drinks will be provided for workers.

Please return this form with your entries!

My dogs are entered in:

Saturday		WC			WCX	
Sunday		WC			WCX	

Please select the job(s) you are willing to do. Depending on the number of volunteers we hope to have you work only one or two positions each day. We will assign jobs after entries close. More than one person is needed for every position. As there are two blinds and a lot of equipment to move. We will have a truck available to move equipment, but it needs to be loaded and unloaded.

**Finnesse All Jazzed Up (Río), CDX RAE JH MJP MXP ThD CGC VCX WC
WCX**

March 9, 2001 – July 24, 2012

Río

Full of life and free of spirit, Río always enthusiastically attacked every task. She started her career in the obedience ring and earned her CDX title. We began agility and she quickly earned her MXP and MJP titles with over 38 1st placements. She also excelled at Rally. She earned her RAE title in a very short time and had 8 legs towards her RAE2. In 2006 she was the #2 Poodle in Rally according to Front & Finish accumulating 306 First and Foremost Points. These points are given based on number of dogs defeated in competition. She loved hunt work and quickly earned her Junior Hunter Title. She earned her WC (Working Certificate) and WCX (Working Certificate Excellent) and was awarded her Bronze, Silver and Gold Medallions by the Poodle Club of America. She had earned the titles in agility, obedience, rally and hunt tests prior to her Atrial Septal Defect (ASD) diagnosis, which proved her dogged determination. Regardless how hard we worked, she never relented. After her diagnosis in June of 2006, thanks to the PCA Foundation who offered free ASD screening at the 2006 National Specialty, and cardiologist, Dr Sonya Gordon, of Texas A & M University Veterinary Teaching Hospital, who repaired her defect, Río was able to continue doing the things she loved so much. In 2009 Río began to show signs of stiffness in her rear end. After a complete orthopedic workup at the University of Tennessee Veterinary Teaching Hospital showed nothing, she began chiropractic and acupuncture therapy at UT under the magic touch of Dr Donna Raditic. Thanks to Dr. Donna, Río was able resume the activities she enjoyed and not need drugs. She had made remarkable progress and with regular therapy, showed no signs of the stiffness. Río was actively involved in some sort of pet therapy program her whole life. She was active in the University of Tennessee H.A.B.I.T. program where she worked at Seymour Primary School in the Ruff Read Program and at Wellington Place Assisted Living Facility. She was most recently involved in the specialty commands program at Patricia Neal Rehabilitation Center working with stroke and head trauma patients. Late last year Río began to show signs of slowing down and loss of appetite. After a thorough workup at UT, she was diagnosed with a heart arrhythmia. After starting her on a heart medication her appetite returned. She seemed to have newfound energy and actually seemed years younger, so her sudden loss came as quite a shock to us. Río attacked all she did with enthusiasm and unbridled energy. She loved to train and was eager to please. Watching her work you would swear she was smiling. She never knew a stranger and continued to be a great ambassador for the therapy programs she was involved in until just before her death. Though it betrayed her in the end, Río truly had a heart of gold.
